What is Autocrat?

- Autocrat is a google sheets add-on that provides a mail merge service like in microsoft word.
- However, it does so much more...

Not your grandma's mail merger

- With successful integration of google forms, slides, and docs autocrat allows you to create amazing form documents automatically!
- The user interface is easier to use than microsoft word
- Mail merging can be done in real time and copies are both kept and can be sent out to the recipients automatically.

The possibilities are endless!

- Used to create mailers, worksheets, assessments, certificates, essays, resumes, and schedules already at this school!
- Don't believe me? Try it yourself!
